

Methods that survive the institution.

One practice. Three expert arms. One Implementation Integrity bar.

Ministries, UN agencies, and INGOs retain Altamont Advisory for utilisation-focused MERL, education systems at national scale, and decision-grade AI & digital — when the assignment is material and the method must hold under real constraints.

WHO COMMISSIONS US

Ministries · UN agencies · Multilaterals · INGOs & foundations

THREE EXPERT ARMS

01 Core Advisory

MERL · Strategy · Institutions · Capacity

Evidence and institutions leadership can stand behind under timelines, politics, and multi-partner pressure.

02 EdWorX

Education systems · Learning at scale

National pathways, teacher systems, and learning architecture designed so quality outlasts the project team.

03 AI & Digital

Decision-grade intelligence · Governed systems

Intelligence and platforms teams can use, govern, and sustain — not pilots that die after close-out.

HOW WE WORK — IMPLEMENTATION INTEGRITY

We design for the decision — not the report. Methods must hold under timelines, politics, multi-partner delivery, and limited absorption capacity. That is the non-negotiable standard across all three arms.

THE ENGAGEMENT MODEL

01 Diagnose the decision

Start with what leadership must decide, fund, or defend — then reverse-engineer the evidence, systems, and constraints required to act with confidence.

02 Design for implementation

Methods fit absorption capacity, political economy, and multi-partner reality. Global standards (including OECD-DAC where required) held with local realism.

03 Leave the institution stronger

Standards, tools, and learning loops remain with your teams. The test of Implementation Integrity: the system still works when we leave the room.

WHY SHORTLIST ALTAMONT ADVISORY

- Utilisation-focused methods — evidence and systems shaped around the next decision leadership must take.
- Field-proven standards — OECD-DAC where required; local realism across Africa, Southeast Asia, and complex multi-country environments.
- One partner across arms — multi-year mandates without cold handoffs between firms mid-programme.
- Capability that remains — standards, tools, and ownership stay with the institution after close-out.
- Senior response in two business days — material work only; ministries, UN, multilaterals, INGOs.
