

Education Systems & Capacity Development

Anonymised client feedback for use in proposals and RFP responses. Organisation and individual names removed. Substance preserved.

Purpose

This document compiles anonymised validation from clients engaged on education systems, curriculum and instructional design, training of trainers, eLearning, and related capacity development work. It is intended for proposals and evaluation committees that require evidence of delivery quality in learning and systems assignments.

Selected client statements

“Professional expertise guided us through a large-scale learning programme and set things up correctly from the start. Deliverables were of exemplary quality. They went above and beyond, providing guidance and best practices to develop effective eLearning tools and templates.”

— Head of Research, international research organisation

“Project management, assessment and report development expertise, coupled with strong collaboration and communication skills, made them the ideal firm. Clear understanding of regional context.”

— Director of Programs, major education foundation

“Excellent support to a critical activity with a major multilateral and government counterpart. Highly substantive and timely outputs. Organisation and delivery of training activities were professionally managed. Positive feedback from participants and ministry counterparts.”

— Senior specialist, major multilateral development bank

“The team demonstrated solid expertise and provided valuable support throughout the project. Their approach to project management was well-organised, professional and flexible, helping us stay on track and meet our goals.”

— Technical counterpart, international development organisation

“Reliable, efficient, effective and with the required experience and expertise to ensure the research is conducted to the highest possible standard and quality. An absolute pleasure to work with.”

— Evaluation & Learning Adviser, international education organisation

“Onboarded quickly and delivered the requested deliverables on time, which was critical for the success of the project.”

— Regional Adviser, international development organisation

How to use this document

Attach as supporting evidence in education systems, capacity development, and related proposals. All statements are anonymised. For named references under NDA, contact Altamont Advisory.
