DIAGNOSTIC SAMPLE ONLY

On track

1

At risk

3

Behind

1

On track: attainment ≥ 95% (direction-aware). At risk: 80–95%. Behind: below 80% or missing actual when a target is set.

Target vs actual

■ Target ■ Actual

Average attendance across cohorts

T 85 / A 81 · 95.3%

Caregivers reporting improved support access

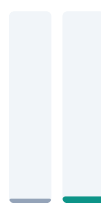

T 55 / A 48 · 87.3%

Graduates in work or further study (90 days)

T 45 / A 39 · 86.7%

Safeguarding incidents unresolved >14 days

T 2 / A 3 · 66.7%

Youth completing skills training

T 70 / A 61 · 87.1%

Side-by-side bars: grey = Target · teal = Actual (scaled to max in set)

Diagnostic summary

1 of 5 indicators on track (attainment ≥ 95%). 3 at risk (80–95%) — Caregivers reporting improved support access, Graduates in work or further study (90 days).... 1 behind (< 80% or missing actual) — Safeguarding incidents unresolved >14 days. Consider a learning action.
